INTRODUCTION

Real Estimate Service is working with an aim to provide cost-effective and efficient cost estimating and consultation services to the real estate development and construction industry. Our expert team, being fully aware of the client's specific needs, strives to produce the most accurate and reliable estimating solutions so that they don't need a second option. We have successfully served many developments, architectural, and contracting corporations throughout the American regions. Fast turnarounds and affordable prices for our quality services set us apart from our competition.

Our primary function in the industry is in hard bid preparation for contractors and subcontractors nationwide. Our history in bidding and setting up contracts has been successful due to our ability to understand the difference between the bottom line and making a profit. Providing quantity takeoffs and cost estimates on all trades, for commercial, industrial, civil, and residential construction.

Our estimating professionals acquired extensive knowledge from numerous years of hands-on involvement delivering comprehensive and detailed estimate jobs. We know that every single job is different from other and things cannot fit in a single template so we pay attention to client's need and frame the estimates that suits their needs and worth their money spent on us.

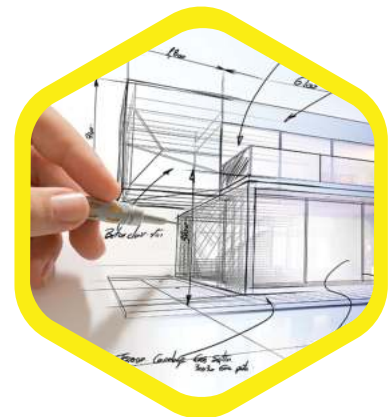

VISION

Real Estimate Service is providing professionals fast and accurate building cost estimates and material takeoffs. And provide grade cost estimates throughout all the design phases of public and private commercial and institutional construction projects. Our Project Estimator can be customized such that additional information can input to meet the needs of our client's business

OVERVIEW

We have the ability and resources to self-perform cost estimations and quantity takeoff of various civil engineering works, Our ability to work in a very short turn-around time helps you to take decisions at the right time.

MISSION

OUR PROJECTS

WORKING PROCESS

We would require blueprints and construction plans from our customers.

After the receiving of these, we would identify the quantity takeoff and construction estimation.

Both of these calculations would then be shared with our clients via email along with the proposal of performing these tasks.

If the customer is interested then we will initiate the working on the project.

SOME OF OUR PROJECTS IN UNITED STATES

Sr #	Project Name	Location	Type of Project	Soepe of work
1	Murdeaux Redevelopment	125 S. Murdeaux Lane Dallas, Texas	Renovation	Renovation work
2	Naval Facilities Engineering Command-Mid-Atlantic	Naval Station Norfolk, Virginia, USA	Commercial	General Contractor's all work
3	210 DAVIS PARK ROAD	Jhons County/Florida, Miami	Park construction	Exterior improvement work
4	The Deluca Family Residence	324 Robert Avenue, Ocean County, New Jersey	Residential	General Contractor's all work
5	South Florida Water management Distric	Palm Beach County, Florida, Miami	Industrial	General Contractor's all work

NOTE:

It usually takes 2-3 working days to complete the cost estimation & quantity take-off of a particular project, but once again it is highly dependent over the scope of work, thus we encourage our customers to provide us the complete bid package including drawings, specifications, Addenda etc.
